

## CONFIGURATION

- NOTES:**
- **Important:** Carefully consider the maximum system pressure. The pressure rating of the manifold is dependent on the manifold material, with the port type/size a secondary consideration. Manifolds constructed of aluminum are not rated for pressures higher than 3000 psi (210 bar), regardless of the port type/size specified.
  - Flange mounting hole data: Inch: 5/8-11 UNC x 1.38 (34,9 mm) DP, Metric: M16 x 2.0-6H x 1.38 (34,9 mm) DP
