CONFIGURATION

NOTES

- Stack height value in technical data table includes seal retainer plate.
- This installation requires a retainer and seal kit which are purchased separately. See "Related

Accessories" section.

• Important: Carefully consider the maximum system pressure. The pressure rating of the manifold is dependent on the manifold material, with the port type/size a secondary consideration. Manifolds constructed of aluminum are not rated for pressures higher than 3000 psi (210 bar), regardless of the port type/size specified.

MODIFIER

/S3	65-45-12 Ductile Iron, Buna-N, Trivalent Clear Zinc with Top Sealer	
	6061-T651 Aluminum, Buna-N
