

## CONFIGURATION

### NOTES:

- Stack height value in technical data table includes seal retainer plate.
- Installation requires a seal kit (ordered separately):**

[990-120-010](#) for U.S. 05H (Viton)

[990-120-011](#) for European (Viton)

[990-120-009](#) for U.S. 05H (Buna-N)

[990-120-012](#) for European (Buna-N)

- Important:** Carefully consider the maximum system pressure. The pressure rating of the manifold is dependent on the manifold material, with the port type/size a secondary consideration. Manifolds constructed of aluminum are not rated for pressures higher than 3000 psi (210 bar), regardless of the port type/size specified.
